BOLLOWAY'S OINTMENT & PILLS. -Prior to the introduction of Holloway's Ointent, cancers were supposed to be ineradicable except by the scalpel, but this doctrine is now explicit ed. The most deplorable cases—cases that could not be reached by the knife or caustle-have recently been cured by this wonderful disinfectant, which acts as an irresistable counter-blast to the virus of the disease, arrests its progress and refleres the empoisoned flesh of its terrible and offensive burden. Scrofulous sores, tumors earhuncles, glandular swellings, sore leg, etc., are no longer the bugbears they were in former times. The Ointment, aided in its action by the Pills, inevitably cures them. feb15dawlw
